## The Process of Inquiry Potato Lab:

### THINK

**Hypothesis:** (A testable statement of what the liquid might be. What do you think will happen when the potato is put in the beaker?)

---

---

---

### TRY

**Observations:** Use your sense of touch, sight, smell, or hearing to record five separate sentences. Be specific and forget about the word "it." (I don't want to read that word on your paper.)

---

---

---

---

### CHECK

**Conclusion:** What did you learn? How do you know? Use the words potato and liquid in your statement. Please underline these words.
